**Bryan Bernier Accepts Position as Professional Independent Insurance Agents of Colorado CEO**

**Nashua, N.H. – February 16, 2016** – Marc Berube, President of Eaton & Berube Insurance Agency, announced today that Bryan Bernier, a senior account executive at the agency, has accepted the position of CEO of the Professional Independent Insurance Agents of Colorado (PIIAC) in Denver, Colo. Bernier, who joined Eaton & Berube in April 2013, will begin his new position at the PIIAC on Feb. 22.

Bernier, who holds his property and casualty producer license as well as his life and health insurance license, has more than 18 years of experience in the insurance industry. Prior to joining Eaton & Berube, he served as the Vice President of Aspen Insurance Agency in Manchester, N.H.

Over the years he has maintained an active role in New Hampshire's insurance industry, serving as Chairman of the Board for the New Hampshire Association of Insurance Agents (NHAIA) from 2013 to 2014, the current National State Director for the NHAIA, and prior Chair of the NHAIA's Young Agents Committee. Bernier also previously served as Chair of the task force for InVEST, which is a school-to-work insurance program that teams with high school and college educators to provide a useful insurance curriculum for students.

"We will greatly miss Bryan [Bernier] at Eaton & Berube but we want to congratulate him on this incredible opportunity," Berube said, adding that as an avid skier, he is quite envious of Bernier's new place of residence. "His insurance background coupled with his heavy involvement with the NHAIA make him a great fit for this leadership position."

"I'm eager to begin this new, exciting chapter, but I will miss all the wonderful people I've worked with at Eaton & Berube – both my co-workers and my clients," Bernier said.

Within the community, Bernier has served as an Ambassador at the Greater Manchester Chamber of Commerce and as Chair of the Granite United Way Emerging Leaders. Prior to pursuing a career in insurance, he obtained a bachelor's degree in Business Administration from Southern New Hampshire University.
