### **NCC and HFO/Trident join forces for Manufacturing Open House**

Nashua, N.H. April 18, 2016- Nashua Community College and Haas Factory Outlet, A Division of Trident Machine Tools, LCC, join forces for a Manufacturing Open House on Wednesday, April 20 from 10 a.m.-6 p.m. Over one hundred industry professionals, area guidance counselors, high school and college students, and NCC faculty and staff members will be in attendance.

Attendees can enjoy a complete tour of the college campus, including its well-equipped and recently expanded Machine Lab which features eight Haas CNC machine tools. Additionally, live cutting demonstrations, machine tool presentations, and vendor, faculty, and student meet and greet opportunities will round out the day's events.

Students interested in the college's Precision Manufacturing associate degree or certificate program, Mechanical Design Technology degree program, or the new Metrology certificate program are encouraged to attend as the application fee for the programs will be waived during the event. Current students and instructors along with support staff will be available to assist those who have questions about the programs or pursuing a career in manufacturing.
